

JULY 24-26, 2023

3RD WOMEN IN MATHEMATICS MEETING

The main goals of this conference are to motivate and inspire new generations of Women Mathematicians, through high quality scientific presentations and discussions that both cover multiple areas of Mathematics and are accessible to a broad audience. This conference will be an opportunity to share different experiences, and, building on previous editions, will help to develop a more supportive community. Participation and/or presentation of communications are not restricted to women - all are welcome. Attendance is free, however all participants are asked to register. For more information and registration:

Sponsored by:

Invited Speakers

Ana Cristina Ferreira (University of Minho)

Ana Paula Dias (University of Porto)

Diana Rodelo (University of Algarve)

Eloísa Grifo (University of Nebraska)

Fátima Silva Leite (University of Coimbra)

Magda Rebelo (Nova University of Lisbon)

Special Session I

**Gender gap in
Mathematical, Computing
and Natural Sciences**

Colette Guillopé

(LAMA, CNRS et Université Paris-Est Créteil)

Special Session II

**The role of the
Mathematical Societies in
promoting gender parity**

Moderator:

Ana Cristina Casimiro

(Nova University of Lisbon)

Panel members:

Alessandra Bernardi

(University of Trento) - Secretary of the Italian
Mathematical Union

Eva A. Gallardo Gutiérrez

(Complutense University of Madrid) - President of the
Royal Spanish Mathematical Society

José Carlos Santos

(University of Porto) - President of the Portuguese
Mathematical Society

Scientific Committee

Joana Nunes da Costa (University of Coimbra)

Margarida Mendes Lopes (University of Lisbon)

Sofia Castro (University of Porto)

Organizing Committee

Ana Jacinta Soares (University of Minho)

Marina Ferreira (University of Coimbra)

Milene Santos (University of Coimbra)

Sílvia Barbeiro (University of Coimbra)

Susana Moura (University of Coimbra)
